

Project Grades Release

Posted on: Thursday, December 12, 2024 6:47:41 PM HKT

Hi everyone,

We have released the project grades for both parts combined. We have also uploaded a base rubric we used for assesing the projects in the Assessments -> Project section.

These grades are adjusted for peer assesment penalties meaning the grade you see is the grade you get after penalites have been applied. If you did not receive any emails about peer assessment penalties it means none were applied to your grade.

Some statistics on the project are as follows:

Average Score: 23

Highest Score: 27
